

## FOXJET PRINTER PREVENTATIVE MAINTENANCE CHECKLIST

Machine Mfg.: \_\_\_\_\_

Machine Model #: \_\_\_\_\_

Machine Serial #: \_\_\_\_\_

#	FoxJet Printer System	Complete
1	Keeping the printhead clean will save lots of potential issues.	
2	Never add ink or solvent to system unless prompted to do so.	
3	Run jet for 8-10 hours at least once every few weeks, if not used in production for long periods of time.	
4	If printer faults while starting up, do not startup more than twice. This will cause ink to thin out which could introduce additional issues.	
5	When replacing service module make sure that two bottles of ink and one bottle of solvent are available to complete the change out.	
6	Always use OEM parts and consumables when operating and/or repairing printer.	
7	Keeping the printhead umbilical as straight as possible, without kinks or twists, will save on the life of the printhead.
