

A&D INSPECTION

# AD-4961 SERIES CHECKWEIGHER

800.513.9918 | LINCsystems.com

## A&D has redefined checkweighing with unparalleled simplicity and best-in-class precision.

» **Best-in-class Precision**

With a newly developed digital load cell and an ultra-high speed processing module, high level precision of 0.08g (3σ)\*1 has been realized. With this high accuracy checkweigher, you can minimize the giveaway of materials above the specified weight and contribute to reductions in production costs.

» **7 inch color touch panel**

The display utilizes a high visibility touch panel color LCD with friendly Graphic User Interface (audio guidance support function included).

» **Image import from USB**

Product images can be quickly uploaded to the checkweigher from a USB flash drive, making product identification and upload fast and simple.

USB flash drive

» **IP65**

Protected from dust and water to IP65 standards. Hygienic design with the entire system washable.

» **Stores up to 1000 products**

Products can be divided into 10 different groups with up to 100 products able to be recorded within each group.

» **Lightweight and compact design**

With it's modular structure, the AD-4961 allows for rapid and simple installation or relocation.

» **Unique modular design**

AD-4961 consists of four units: an infeed conveyor unit, a weighing conveyor unit, a control unit and a base unit, allowing fast and simple assembly. In the case of system shutdown, you do not need to wait for a service engineer to respond to the issue. Just simply replace the unresponsive module by yourself, so that you can shorten system downtime and maximize production efficiency.

Infeed Conveyor Unit

Weighing Conveyor Unit

Control Unit

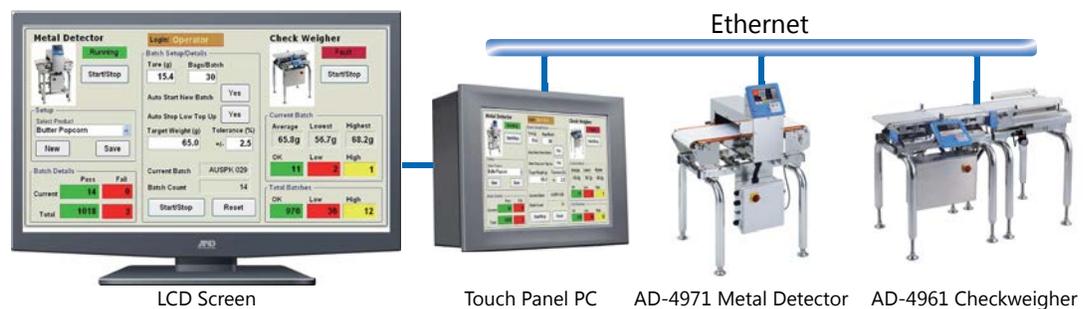

Base Unit

\*1 For AD-4961-2KD-2035. Depends on the shape and the condition of the product and installation environment.

## A&D's checkweigher can be used for connection and communication with external devices.

### » Modbus® communication

Equipped with Modbus RTU/Modbus TCP as standard. With Modbus communication, seamless connection can be easily achieved. Operations such as stopping and starting weighing, collecting data and changing product can all be set from an external device.

### » Various inputs / outputs

Rejector output, alarm output, metal detector input, RS-232C, TCP/IP and USB interface are equipped as standards. Storing data in a USB flash drive or outputting data to a printer is also possible.

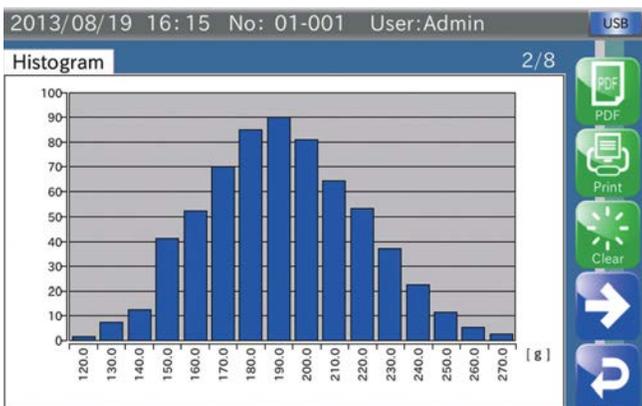

### » Graph printing to a printer

Histogram, X/R control charts and summary reports can be outputted to a PostScript printer via Ethernet.

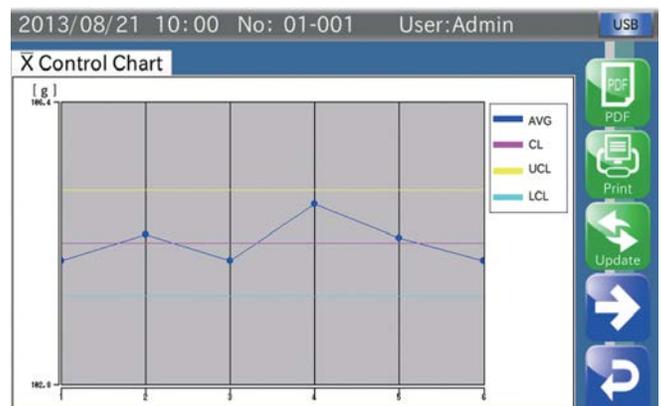

### » Data summary

Various summary data such as histograms (frequency including defects), X charts, R charts, total summaries, etc., are available. You can visually confirm fluctuation of weighing results and adjust your manufacturing machine accordingly.

### Histogram Display Screen

### X̄ Chart Screen

# AD-4961-600-1224

800.513.9918 | LINCsystems.com

If you are looking for a mighty machine with a small form factor our 600g checkweigher is the right choice. This system can achieve speeds up to 400 pieces per minute and has an overall system length under 3 ft.

Capacity **600g**

Conveyor belt width **120mm**

## Specifications

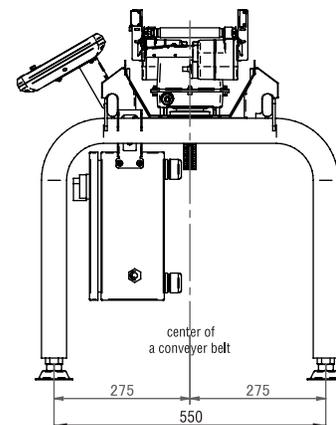

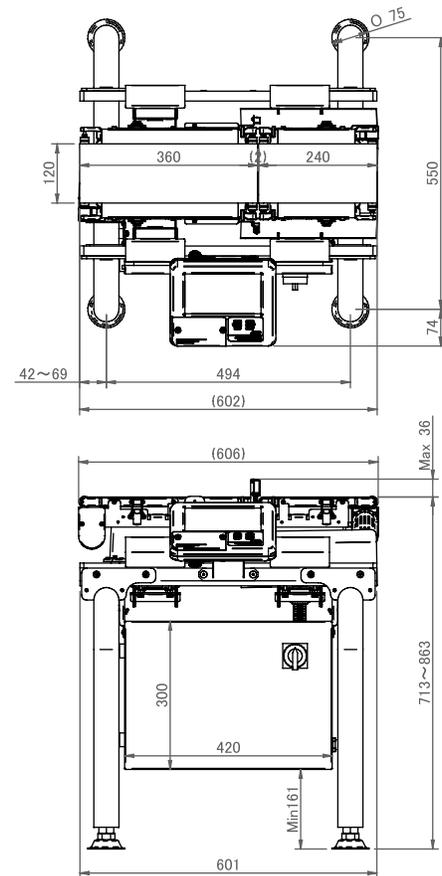

Model	AD-4961-600-1224
Capacity	600 g   1.3 lbs
Resolution	0.01 g
Accuracy (3 $\sigma$ )*1	0.08 g
Max. throughput	400 pcs/min
Conveyor belt width	120 mm   4.7 in
Conveyor length	360 mm   14.2 in
Transport medium	Urethane belt
Conveyor belt speed	15 ~ 120 m/min   49.2 ~ 393.7 ft/min
Max. product dimensions	Length: 22 ~ 200 mm Width: 120 mm Length: 0.9 ~ 7.9 in Width: 4.7 in
Weighing sensor	Strain gauge load cell
Display	7 inch touch panel color display (WVGA)
Operation method	Touch panel (resistive film type), operation buttons
Number of recorded items	1,000 items (10 groups x 100 items)
Communication functions	Modbus TCP / Modbus RTU / RS-232C / 485 (selectable) / TCP/IP (PostScript Printer) / USB (for PostScript printer, USB memory, data storage, image import use)**3
External input	Non-voltage contact input 4 points
External output	Relay output 8 points
Dust / water resistance specifications	IP65
Operation temperature / humidity range	-5 ~ 40°C / 23 ~ 104°F humidity below 85% (with no condensation)
Power supply**4	Single phase AC100V -240V (+10% / -15%), 50/60Hz 180 VA
External dimensions	Length: 660 mm / Width: 602 mm / Height: 713-860mm Length: 26 in / Width: 23.7 in / Height: 28.1 - 33.9 in
Weight**2	Approx. 35 kg / 77.2 lbs
Material	Display: ABS resin
	Conveyor unit: Aluminum (alumite coating) and PP resin
	Control box: Stainless steel
	Base unit: Stainless steel

\*1 Depends on the shape and the condition of the product and installation environment.

\*2 Values for external dimensions and weight are for the standard condition without rejector.

\*3 UBS memory must be formatted to FAT32.

\*4 Please prepare a  $\Phi$  4-7 mm power cable

AD-4961-600-1224

## Rejector for AD-4961-600-1224

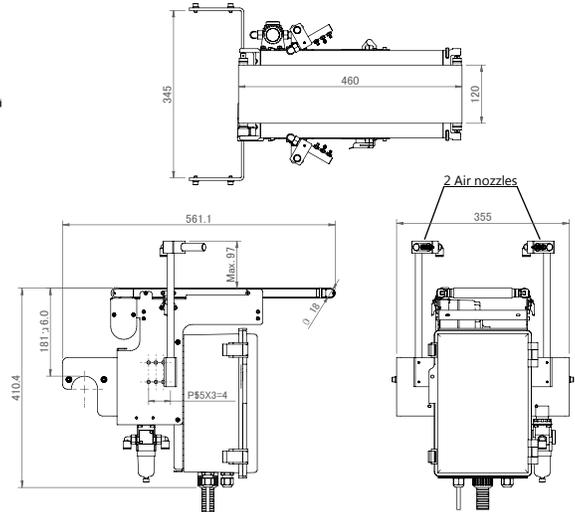

\*Please supply an air compressor with  $\Phi$  10 mm air tube or 1/4" quick connect to be connected to the filter regulator of the rejector.

Air supply: 72.5 psi, 2.6 NL/time

### Air Jet Rejector

#### AD-4984-1246

Screening capability  
400 pcs/min.

## Options for AD-4961-600-1224

Optional anti-static breeze break installed

### Anti-Static Breeze Break AD-4961-11-1224

Anti-static breeze break prevents air currents to the weighing conveyor and static electricity to achieve accurate weighing.

## Options for all AD-4961 models

Optional tower light and display stand installed

### Display Stand AD-4961-01

The display is attached on the opposite side from the standard display position, across from the user. The display is located approx. 310 mm (12 in.) above the conveyor belt

### Tower Light AD-4961-02

Highly visible three color LED tower. Easy configuration with the AD-4961 checkweigher using DO (Digital Output) map setting.

- \* AD-4961-01 display stand is required to install this option.
- \* Dust and water resistance level is IP53.

### Leg Kit Extension AD-4961-LEG

Leg kit extension up to 40".

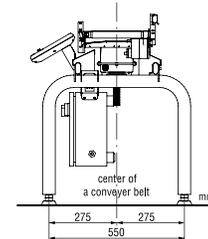

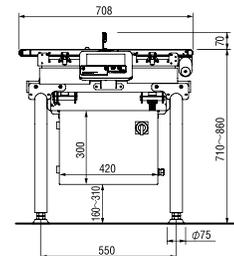

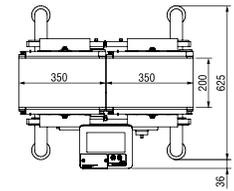

# AD-4961-2KD-2035

800.513.9918 | LINCsystems.com

Our 2000g checkweigher is very versatile featuring dual range capacity enabling high repeatability. This system can reach speeds of 320 pieces per minute giving our customers the throughput they need to accelerate productivity.

Capacity **2,000g**

Conveyor belt width **200mm**

AD-4961-2KD-2035  
Checkweigher with flipper rejector

## Specifications

Model	AD-4961-2KD-2035
Capacity	500 g / 2,000 g   1.1 lbs / 4.4 lbs
Resolution	0.01 g / 0.1 g
Accuracy (3σ)*1	0.08 g / 0.18 g
Max. throughput	320 pcs/min
Conveyor belt width	200 mm   7.8 in
Conveyor length	350 mm   13.7 in
Transport medium	Urethane belt
Conveyor belt speed	15 ~ 120 m/min   49 ~ 393 ft/min
Max. product dimensions	Length: 30 ~ 300 mm Width: 200 mm
	Length: 1 ~ 11.8 in Width: 7.8 in
Weighing sensor	Strain gauge load cell
Display	7 inch touch panel color display (WVGA)
Operation method	Touch panel (resistive film type), operation buttons
Number of recorded items	1,000 items (10 groups x 100 items)
Communication functions	Modbus TCP / Modbus RTU / RS-232C / 485 (selectable) / TCP/IP (PostScript Printer) / USB (for PostScript printer, USB memory, data storage, image import use)*3
External input	Non-voltage contact input 4 points
External output	Relay out 8 points
Dust / water resistance specifications	IP65
Operation temperature / humidity range	-5 ~ 40°C / 23 ~ 104°F humidity below 85% (with no condensation)
Power supply*4	Single phase AC100V -240V (+10% / -15%), 50/60Hz 180 VA
External dimensions	Length: 700 mm / Width: 660 mm / Height: 710-860 mm
	Length: 27.5 in / Width: 25.9 in / Height: 27.9 - 33.8 in
Weight*2	Approx. 35 kg / 86 lbs
Material	Display: ABS resin
	Conveyor unit: Aluminum (alumite coating) and PP resin
	Control box: Stainless steel
	Base unit: Stainless steel

\*1 Depends on the shape and the condition of the product and installation environment.  
\*2 Values for external dimensions and weight are for the standard condition without rejector.  
\*3 UBS memory must be formatted to FAT32.  
\*4 Please prepare a Φ 4-7 mm power cable

## Options for AD-4961-2KD-2035

Optional upper and lower breeze break installed

### Upper Breeze Break AD-4961-11

Anti-static breeze break prevents air currents to the weighing conveyor and static electricity to achieve accurate weighing. Clearance between the conveyor belt and the breeze break is 135 mm (5 in.)

\* Recommended use with the lower breeze break.  
\* This option is for AD-4961-2KD-2035.

### Lower Breeze Break AD-4961-12

Prevents air currents from underneath the system to ensure accurate weighing.

\* Recommended use with the lower breeze break.  
\* Material: Stainless steel  
\* This option is for AD-4961-2KD-2035.

### Cross Plate AD-4961-13

Eliminates gap between infeed conveyor and weighing conveyor and conveys product smoothly. Suitable for weighing small products.

\* Material: Stainless steel  
\* This option is for AD-4961-2KD-2035.

### Product guide AD-4961-14

Installed on both infeed and weighing conveyors. Adjust products to be conveyed on the center of both conveyors. Applicable product width is from 500 mm (19 in.) to 100 mm (4 in.)

\* This option is for AD-4961-2KD-2035.

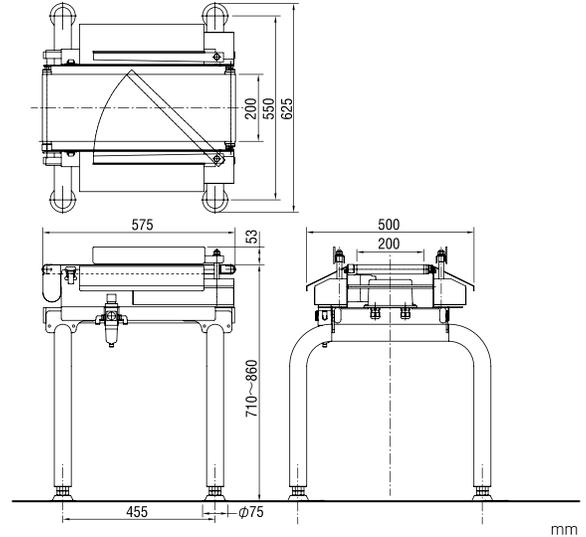

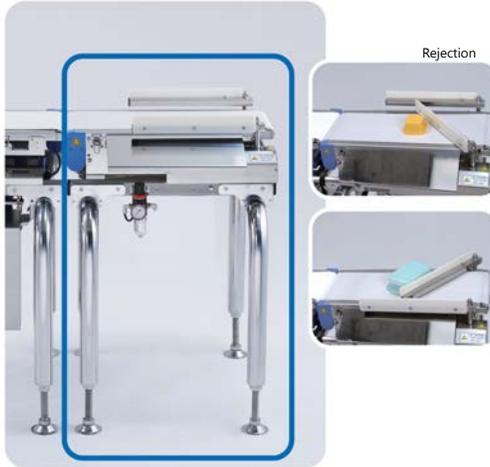

## Rejector for AD-4961-2KD-2035

\*Please supply an air compressor with  $\Phi$  6 mm air tube or 1/4" quick connect to be connected to the filter regulator of the rejector.  
Air supply: 72.5 psi, 0.1 NL/time

### Flipper Type Rejector

#### AD-4981-2057

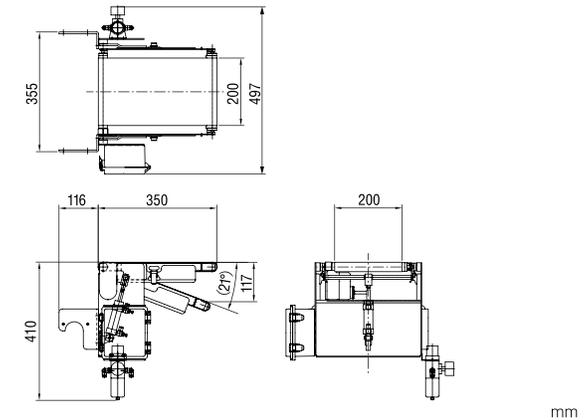

Screening capability  
120 pcs/min.

### Conveyor Drop Rejector

#### AD-4982-2035

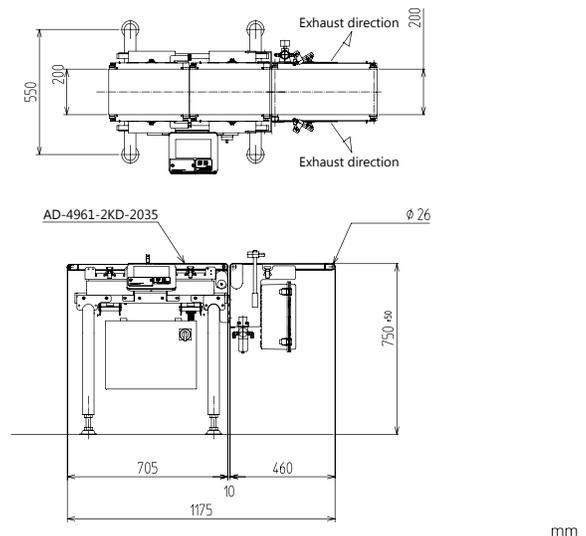

Screening capability  
150 pcs/min.

### Air Jet Rejector

#### AD-4984-2046

Air supply: 72.5 psi  
2.6 NL/time  
Screening capability  
320 pcs/min.

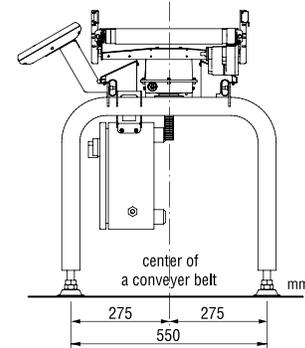

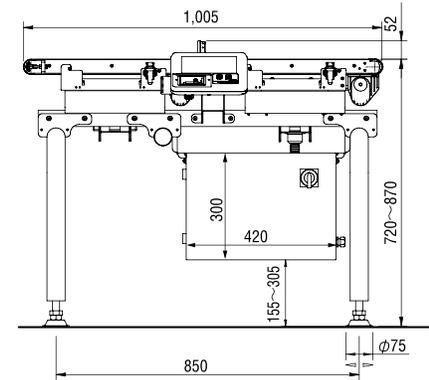

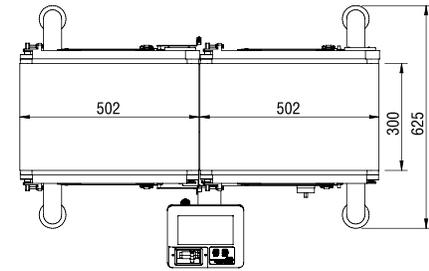

# AD-4961-6K-3050

800.513.9918 | LINCsystems.com

Our intermediate checkweigher with a capacity up to 6000g. This machine embodies the essential aspects needed in a checkweigher. The 6K offers high repeatability for bulk case weights and individual packages.

Capacity **6,000g**

Conveyor belt width **300mm**

## Specifications

Model	AD-4961-6K-3050
Capacity	6,000 g   13.2 lbs
Resolution	0.1 g
Accuracy (3σ)*1	1.0 g
Max. throughput	145 pcs/min
Conveyor belt width	300 mm   11.8 in
Conveyor length	500 mm   19.6 in
Transport medium	Urethane belt
Conveyor belt speed	10 ~ 80 m/min   32.8 ~ 262.4 ft/min
Max. product dimensions	Length: 80 ~ 450 mm Width: 300 mm Length: 3.1 ~ 17.7 in Width: 13 in
Weighing sensor	Strain gauge load cell
Display	7 inch touch panel color display (WVGA)
Operation method	Touch panel (resistive film type), operation buttons
Number of recorded items	1,000 items (10 groups x 100 items)
Communication functions	Modbus TCP / Modbus RTU / RS-232C / 485 (selectable) / TCP/IP (PostScript Printer) / USB (for PostScript printer, USB memory, data storage, image import use)*3
External input	Non-voltage contact input 4 points
External output	Relay output 8 points
Dust / water resistance specifications	IP65
Operation temperature / humidity range	-5 ~ 40°C / 23 ~ 104°F humidity below 85% (with no condensation)
Power supply*4	Single phase AC100V -240V (+10% / -15%), 50/60Hz 180 VA
External dimensions	Length: 1005 mm / Width: 736 mm / Height: 720-870mm Length: 39.5 in / Width: 28.9 in / Height: 28.3 - 34.2 in
Weight*2	Approx. 50 kg / 110 lbs
Material	Display: ABS resin Conveyor unit: Aluminum (alumite coating) and PP resin Control box: Stainless steel Base unit: Stainless steel

\*1 Depends on the shape and the condition of the product and installation environment.

\*2 Values for external dimensions and weight are for the standard condition without rejector.

\*3 USB memory must be formatted to FAT32.

\*4 Please prepare a Φ 4-7 mm power cable

AD-4961-6K-3050  
with optional display stand  
tower light and pusher rejector

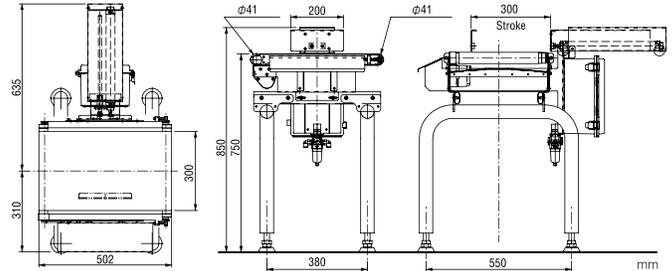

## Rejector for AD-4961-6K-3050

\*Please supply an air compressor with  $\Phi$  8 mm air tube or 1/4" quick connect to be connected to the filter regulator of the rejector.  
Air supply: 72.5 psi, 0.1 NL/time

### Pusher Rejector

#### AD-4983-3050

Screening capability  
60 pcs/min.

## Options for all AD-4961 models

#### Display Stand AD-4961-01

The display is attached on the opposite side from the standard display position, across from the user. The display is located approx. 310 mm (12 in.) above the conveyor belt

#### Tower Light AD-4961-02

Highly visible three color LED tower. Easy configuration with the AD-4961 checkweigher using DO (Digital Output) map setting.

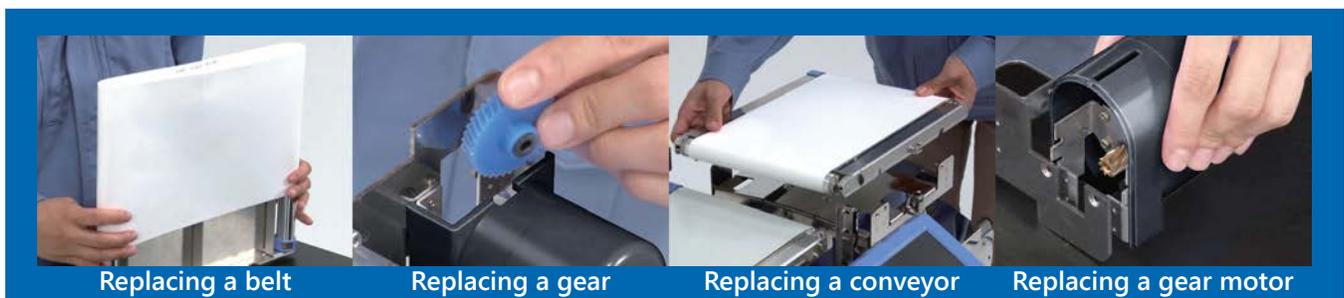

\* AD-4961-01 display stand is required to install this option.  
\* Dust and water resistance level is IP53.

#### Leg Kit Extension AD-4961-LEG

Leg kit extension up to 40".

## Maintenance Kit for AD-4961 Series

The maintenance kit contains disposable parts that need to be replaced periodically. These maintenance parts are easy to replace, so system downtime can be minimized.

Replacing a belt

Replacing a gear

Replacing a conveyor

Replacing a gear motor

The maintenance kit contains:

- Qty: 1 - Weighing Conveyor Unit
- Qty: 1 - Infeed Conveyor Unit
- Qty: 1 - Photo Sensor without reflector
- Qty: 1 - Drive pulley (balance adjusted)

- Qty: 1 - Idle pulley (balance adjusted)
- Qty: 1 - Motor Unit (including a plastic gear)
- Qty: 5 - Plastic gears

» **Optimization of weighing configuration** By inputting throughput (products per minute) or belt speed (m.min), optimal weighing conditions can be automatically set. You can weigh products precisely without inputting various settings.

## » History function **Operational History**

The history of configuration changes can be recorded and displayed. Suitable for use in HACCP programs along with the weighing history function.

Users can be registered and their scope of permitted operations controlled according to 4 management levels.

- [ Operator ]
- [ Supervisor ]
- [ Quality Manager ]
- [ Administrator ]

By assigning each user to the appropriate level of access, inadvertent operations can be avoided. \*2

\*2 "Operator" is set when the power is turned on.

Time	User Name	No.	Item	Detail

## Weighing History

Weighing results are automatically recorded in a USB flash drive during weighing. Output data: Date, time, group, and product number, weight data and judgments.

### Weighing history output example:

```

2014/10/3, 19:45:52, 40, 01-001, 100.05, 0K
2014/10/3, 19:45:56, 54, 01-001, 150.1, Over
2014/10/3, 19:46:00, 58, 01-001, 70.5, Under
2014/10/3, 19:46:04, 52, 01-001, 0.0, Detect Two
2014/10/3, 19:46:08, 56, 01-001, 0.0, Unsplit
2014/10/3, 19:46:12, 60, 01-001, 100.5, Metal
2014/10/3, 19:46:16, 54, 01-001, 105.1, Ext 1
2014/10/3, 19:46:20, 78, 01-001, 95.5, Ext 2
    
```

## USB Memory

Approx. 6MB memory size is required for 8 hours operation at the maximum throughput (320 pcs/min.)

Approx. 7GB memory size is required for 24 hours 365 days operation.
