Blue Ocean®

High-Performance air cushion film with 100% Post Industrial recycled content.

We're thrilled to introduce another innovation in sustainable packaging - High-Performance air cushions made with 100% post-Industrial recycled content. These eco-friendly air cushions are an excellent choice for businesses that care about the environment and need a higher-performing film without the use of virgin materials.

Our air cushions are made from Post-industrial recycled plastics, which means you are not only keeping waste out of landfills but also supporting the recycling industry. These cushions are lightweight, flexible, and strong, providing exceptional protection for your products during shipping while reducing your carbon footprint.

By choosing our Blue Ocean air cushions, you're not only making a smart business decision, but you're also showing your customers that you care about sustainability. Moreover, You're taking a stand against the wastefulness of traditional packaging materials and embracing a circular economy that promotes reuse and recycling.

BENEFITS

DURABLE AND RELIABLE

Compelling quality in three models: small, medium and large.

SPACE AND COST-EFFICIENT

Minimal storage and low transport costs.

ENVIRONMENTALLY-FRIENDLY

Due to its space-saving volume, air cushion packaging minimises transport volume and allows for easy disposal after use – with just one snip you are left with an empty pouch that can be recycled.

EASY TO USE

Compact, user-friendly equipment that can be integrated within your packaging system in many different ways.

- Environmental Friendly
- 100% post-Industrial resin
- Reduction of carbon footprint
- High-Performance
- Many sizes and styles are available

RIPAC is committed to providing our customers with the best solution at an affordable price. We do this with a wide variety of packaging equipment and film options to suit your packaging needs. With a dedicated sales team, call us today to see what we can do for you.
