

The Markem-Imaje 2200 Series Print & Apply Labeler is a high-performance, industrial labeling solution designed for case, carton, and pallet labeling in demanding production environments. Built for speed, accuracy, and reliability, the 2200 Series prints and applies GS1-compliant labels with consistent placement—even on variable-speed lines. With a modular design and a wide range of interchangeable applicators, the system can handle front, side, corner

**MI Print & Apply 2200**  
**SAP# 0275A41196**  
**Serial# GF24101128**

wrap, top, and multi-side labeling without complicated line modifications. Featuring the intelligent eTouch-S® applicator, advanced label path control, and seamless integration with CoLOS® software, the 2200 Series maximizes uptime, minimizes human error, and ensures full traceability across packaging operations

## Specifications:

- Print methods: Thermal Transfer or Direct Thermal (selectable on the same print unit)
- Counters: Up to 10 programmable counters for variable data
- Many Available print engine configurations
- Maximum print speed: Up to 300 mm/second
- Application rate: Capable of 150+ packs per minute, application dependent
- Barcode quality: ANSI Grade A/B compliant even at high speeds
- Label type & orientation: Die-cut, self-adhesive labels, outside-wound (standard)
- Maximum label width X length X roll diameter: 178 mm (7") X Up to 660 m (thermal transfer) X 350 mm standard
- Fonts: 16 scalable fonts, Downloadable TrueType & Unicode fonts
- Graphics formats: BMP, WMF, PCX, PNG, ICO, GIF, TIFF, JPEG
- Barcodes supported: 1D & 2D codes including Code 128, EAN, UPC, GS1-128, QR Code, DataMatrix
- Applicator types: Tamp, wipe-on, swing arm, corner wrap, multi-side
- Interfaces: Ethernet, USB, RS-232, discrete I/O
- PLC & line integration: Encoder, sensors, scanners supported
- Software compatibility: CoLOS® Create / Create Pro – job design, CoLOS® Enterprise – ERP, WMS, MES integration and centralized control
- Power supply: 100–240 VAC, 50/60 Hz
- Compressed air: ~6 bar (clean, dry air)
